

# Bra-makers Supply Regular Wires

# *Bra-makers Supply Regular Wires*

Regular wires are the same underarm height but are not as high in the front as the LONG wires. The length of the wire is measured around the outside from tip to tip

Make sure the page prints out at 100%.  
If this line is exactly 5" (127 mm) long,  
you know the wire size is accurate

# *Bra-makers Supply Regular Wires*

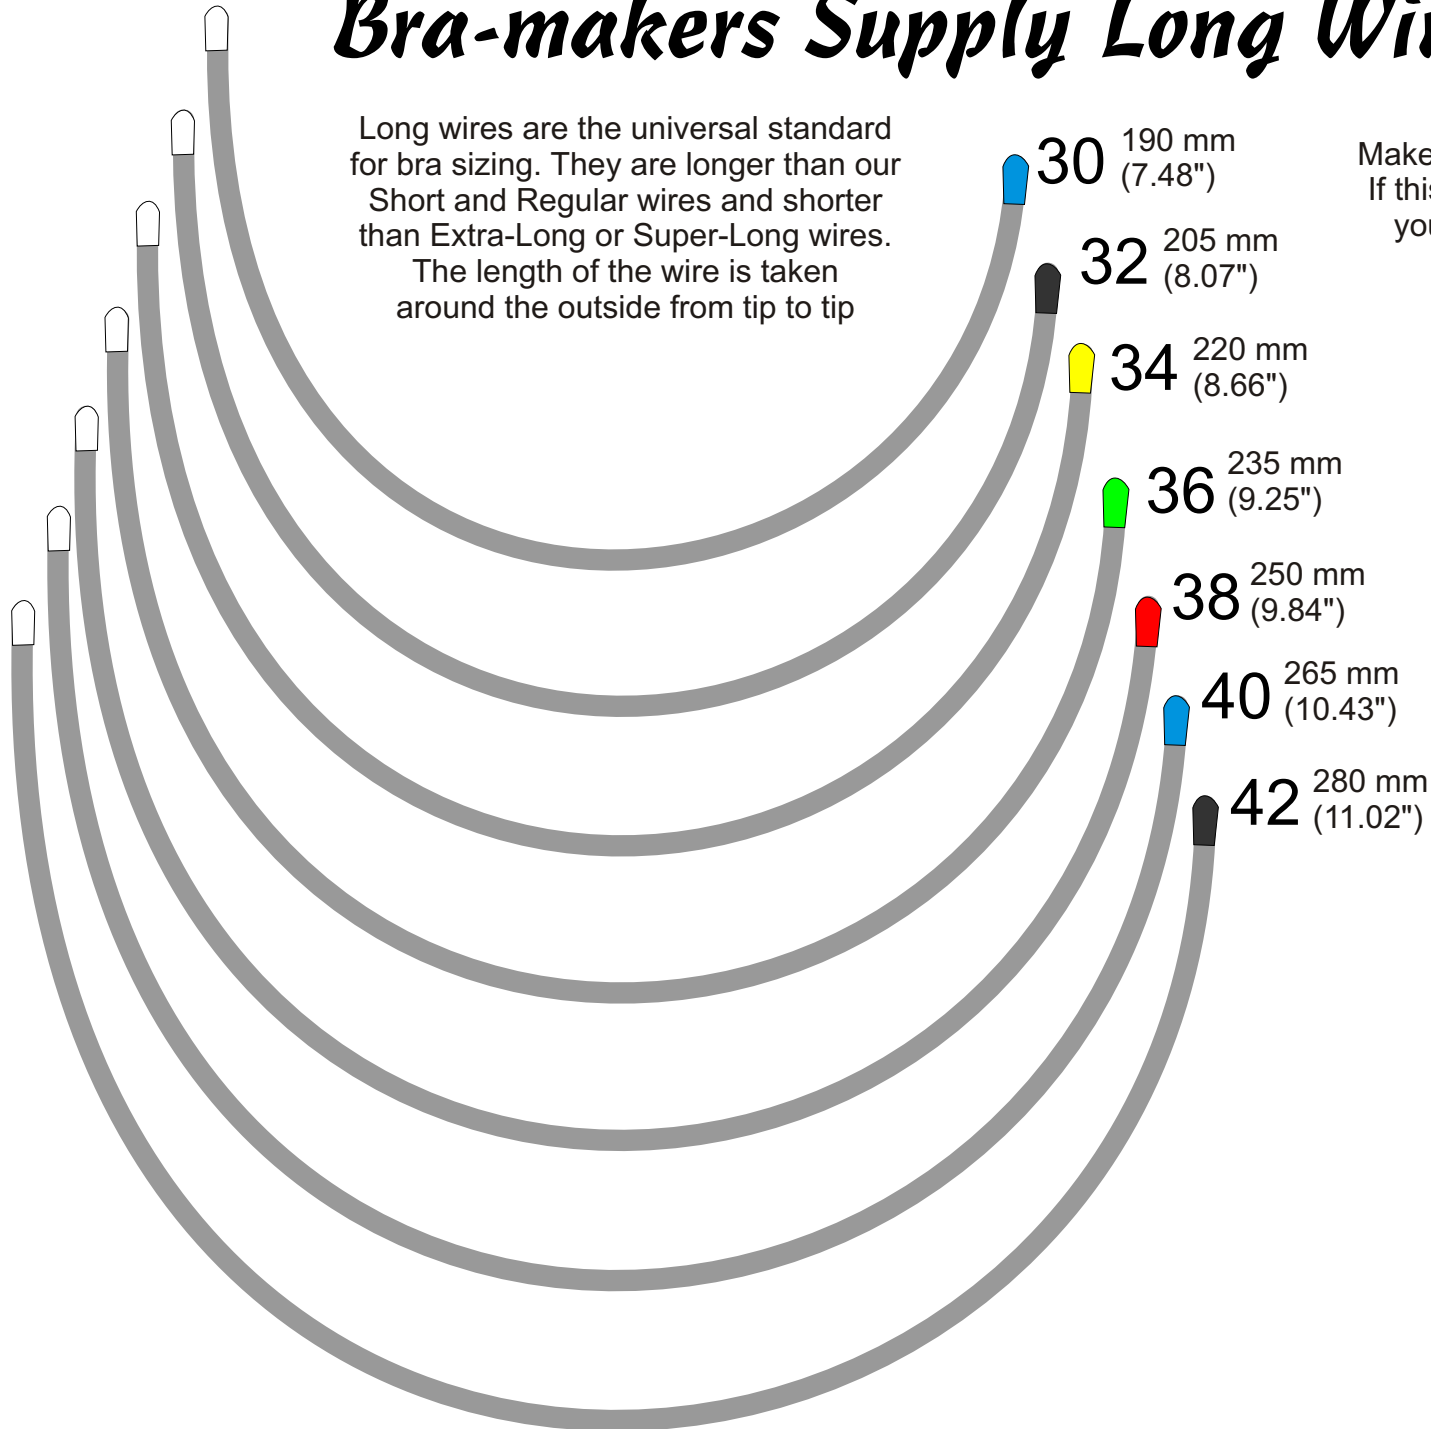

Regular wires are the same underarm height but are not as high in the front as the LONG wires. The length of the wire is measured around the outside from tip to tip

Make sure the page prints out at 100%.  
If this line is exactly 5" (127 mm) long,  
you know the wire size is accurate

# Bra-makers Supply Long Wires

Long wires are the universal standard for bra sizing. They are longer than our Short and Regular wires and shorter than Extra-Long or Super-Long wires. The length of the wire is taken around the outside from tip to tip

Make sure the page prints out at 100%. If this line is exactly 5" (127 mm) long, you know the wire size is accurate

# Bra-makers Supply Long Wires

If the line is exactly 5" (127 mm) long,  
you know the wire size will be accurate

# Bra-makers Supply Short Wires

Short wires are intended for bras that are cut lower in the front, but still maintain underarm coverage. If you print this page at 100% and the centre line is 7- 7/8" (200 mm) long, you know the size is accurate.

# Bra-makers Supply

## Vertical Long Wires

Vertical wires are the same length as our long wires. The front arm is more vertical so the curve swings toward the front. The length of the wire is taken around the outside from tip to tip

This line should be 6"  
(152.4 mm) long
