

Bra-makers Supply Regular Wires

Bra-makers Supply Regular Wires

Regular wires are the same underarm height but are not as high in the front as the LONG wires. The length of the wire is measured around the outside from tip to tip

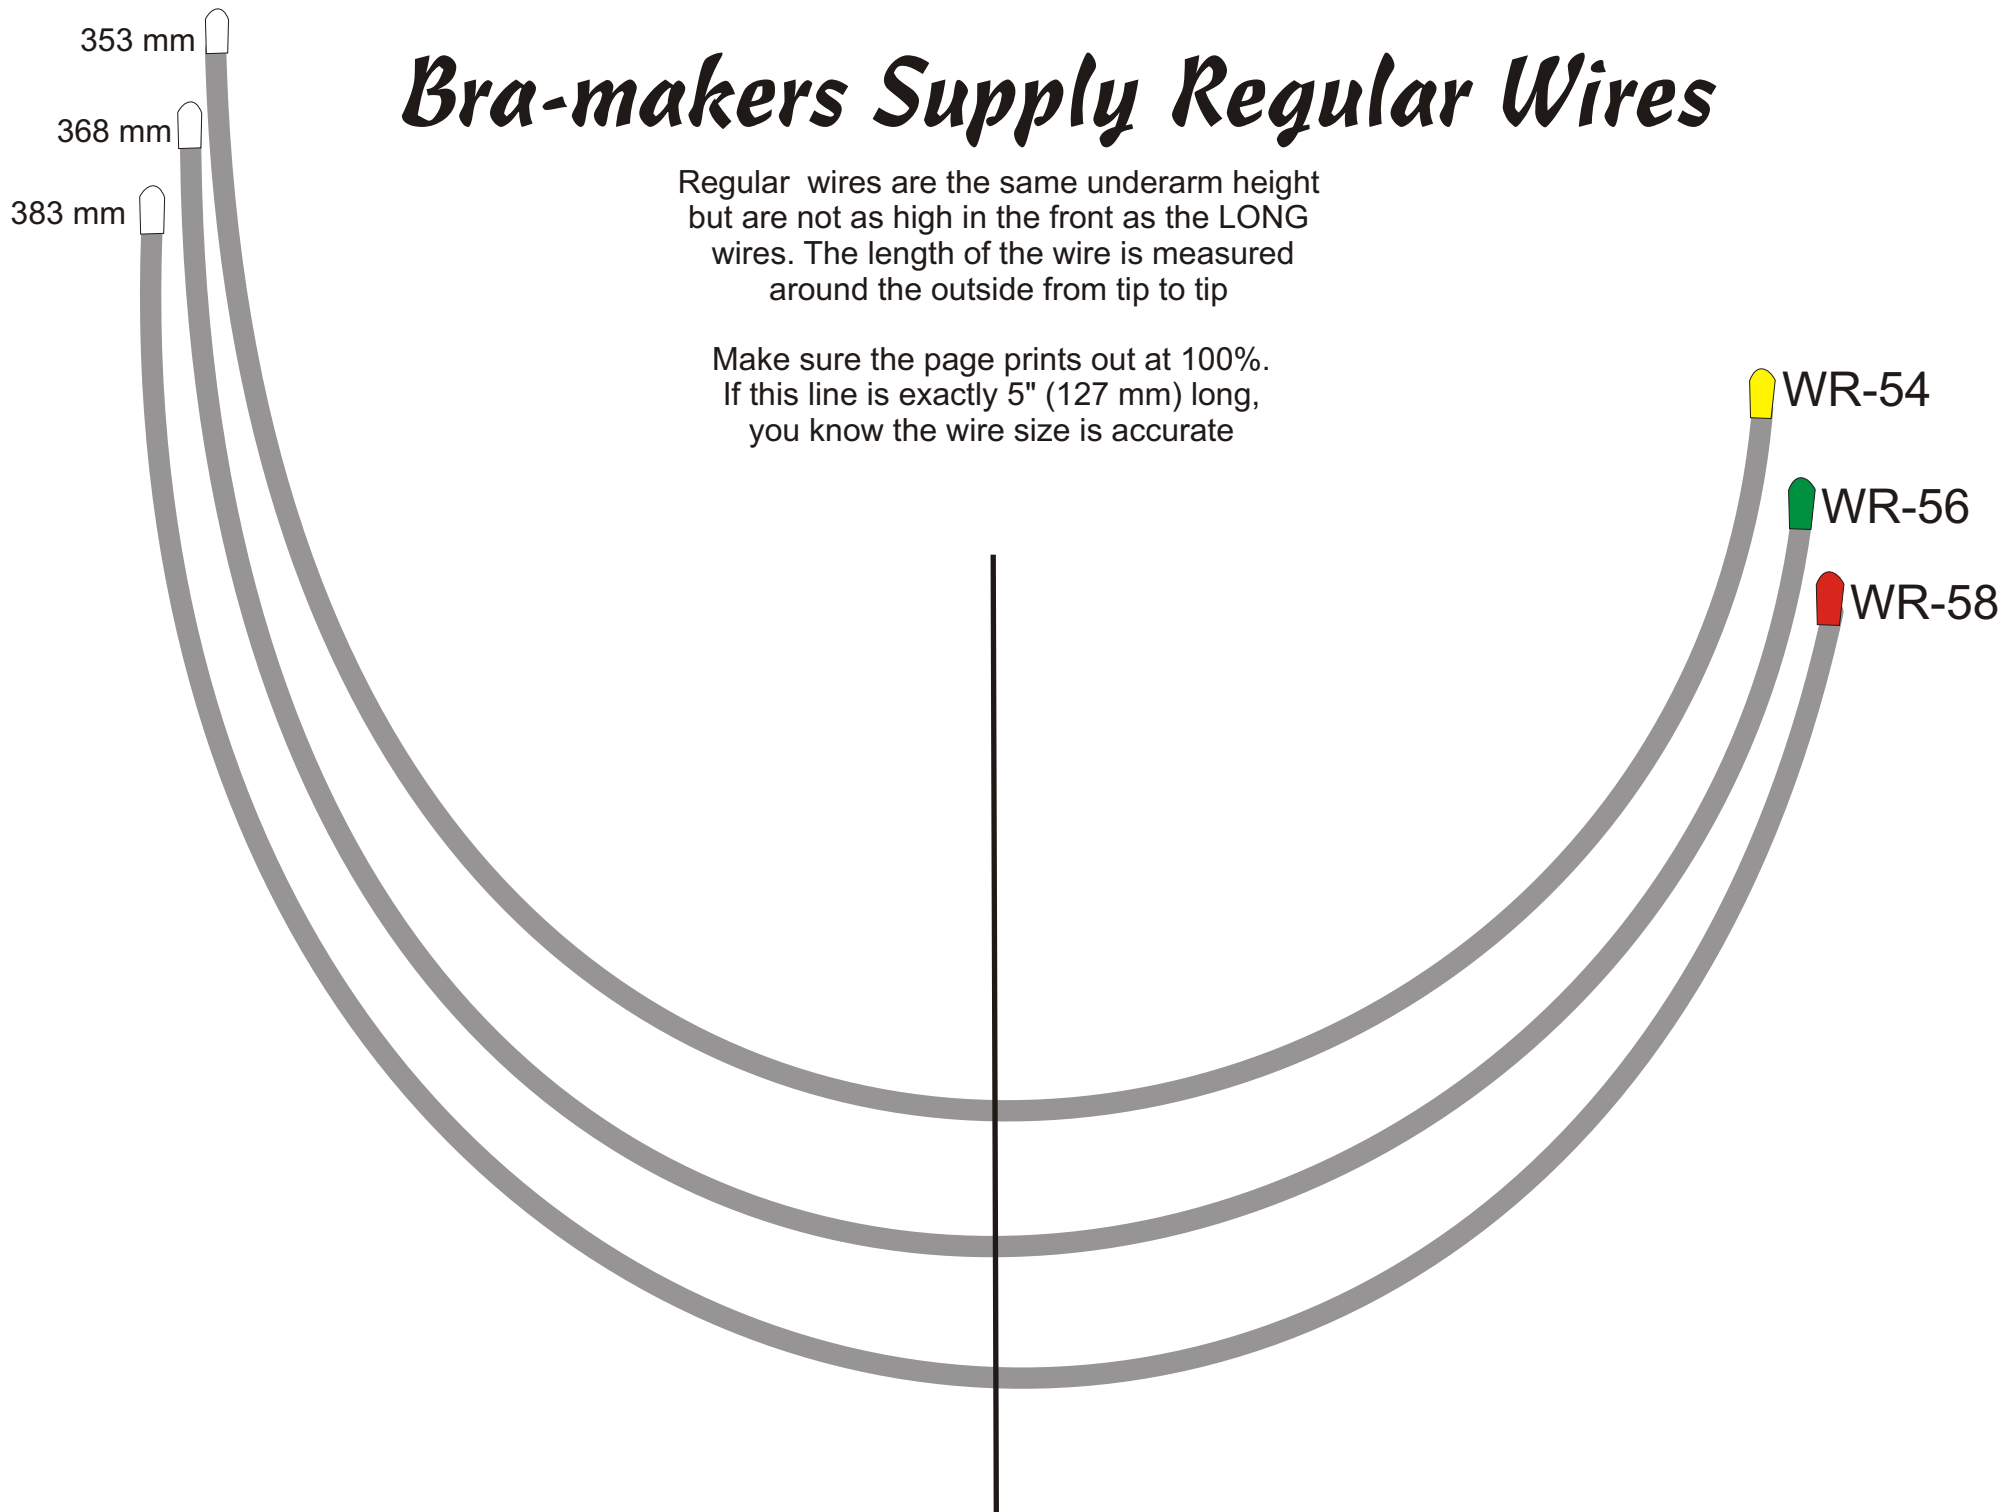

Make sure the page prints out at 100%.
If this line is exactly 5" (127 mm) long,
you know the wire size is accurate

Bra-makers Supply Regular Wires

Regular wires are the same underarm height but are not as high in the front as the LONG wires. The length of the wire is measured around the outside from tip to tip

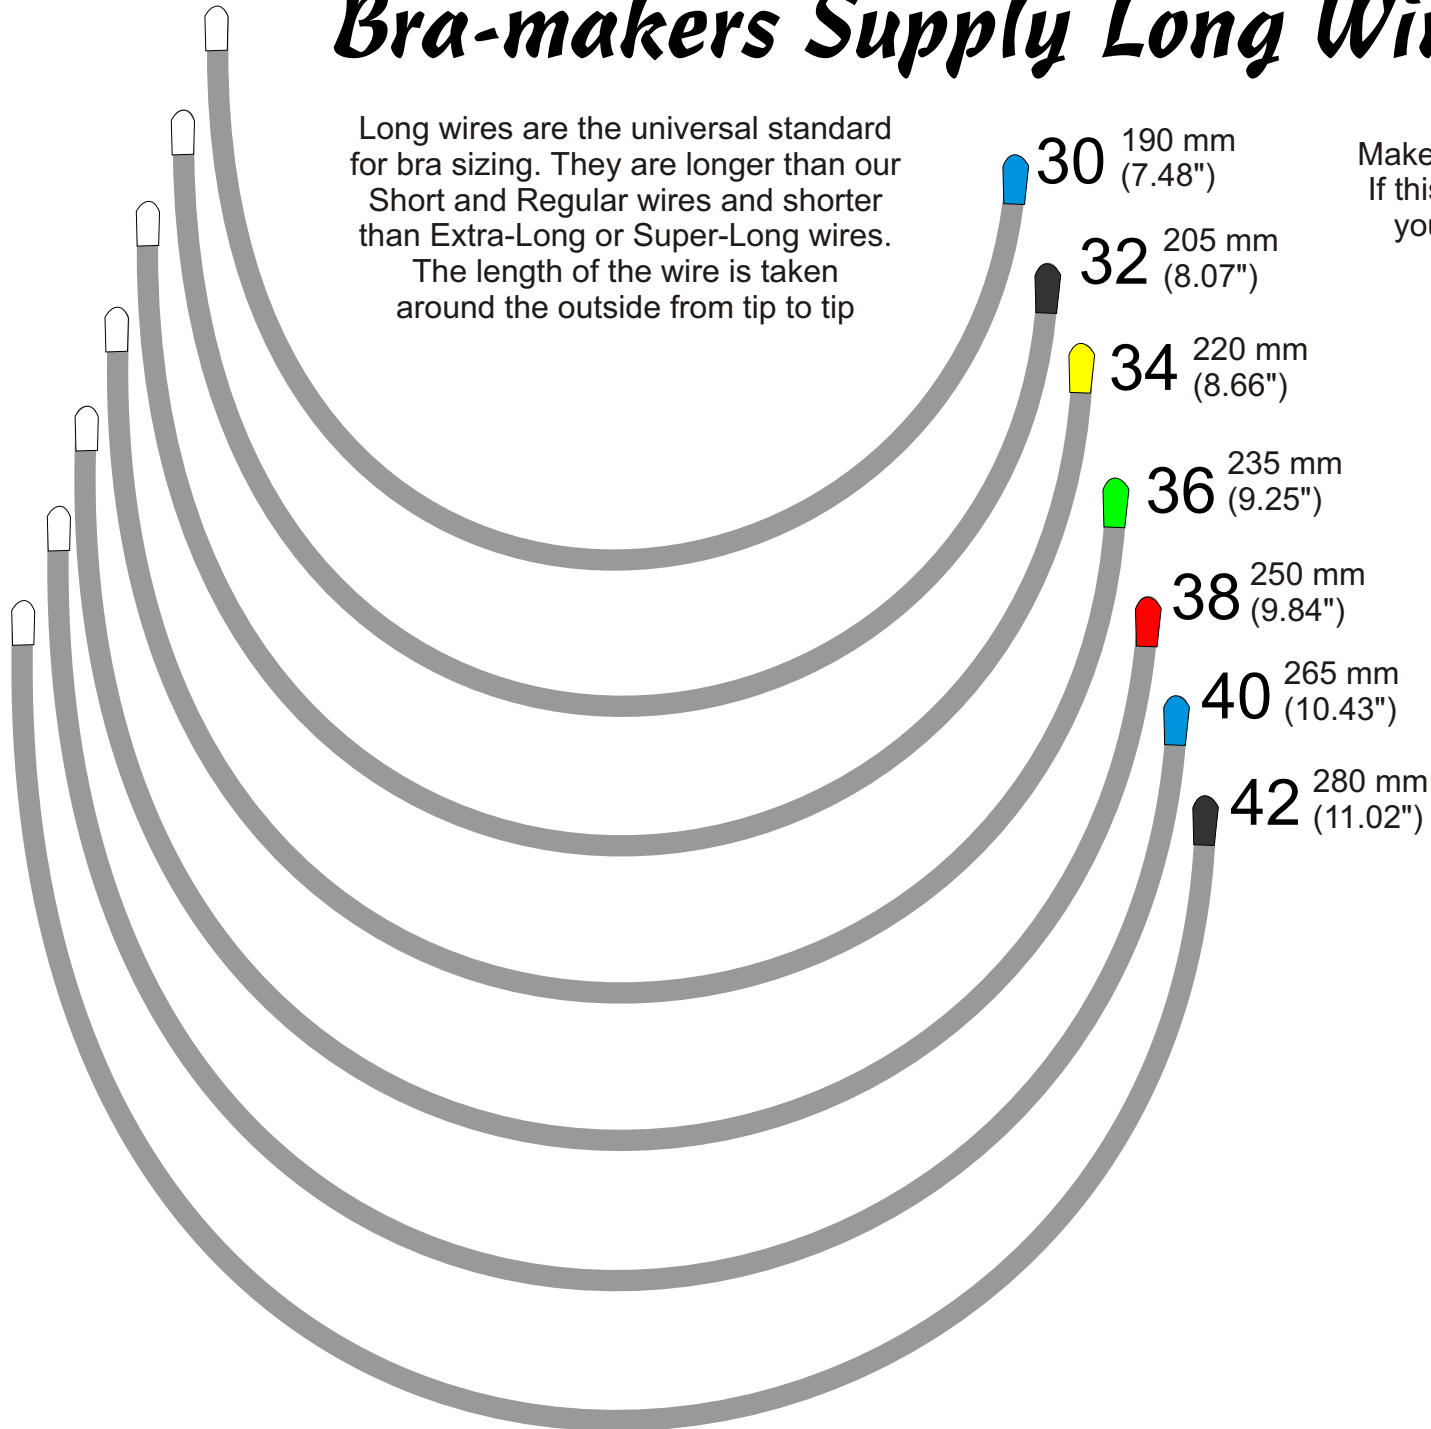

Make sure the page prints out at 100%.
If this line is exactly 5" (127 mm) long,
you know the wire size is accurate

Bra-makers Supply Long Wires

Long wires are the universal standard for bra sizing. They are longer than our Short and Regular wires and shorter than Extra-Long or Super-Long wires. The length of the wire is taken around the outside from tip to tip

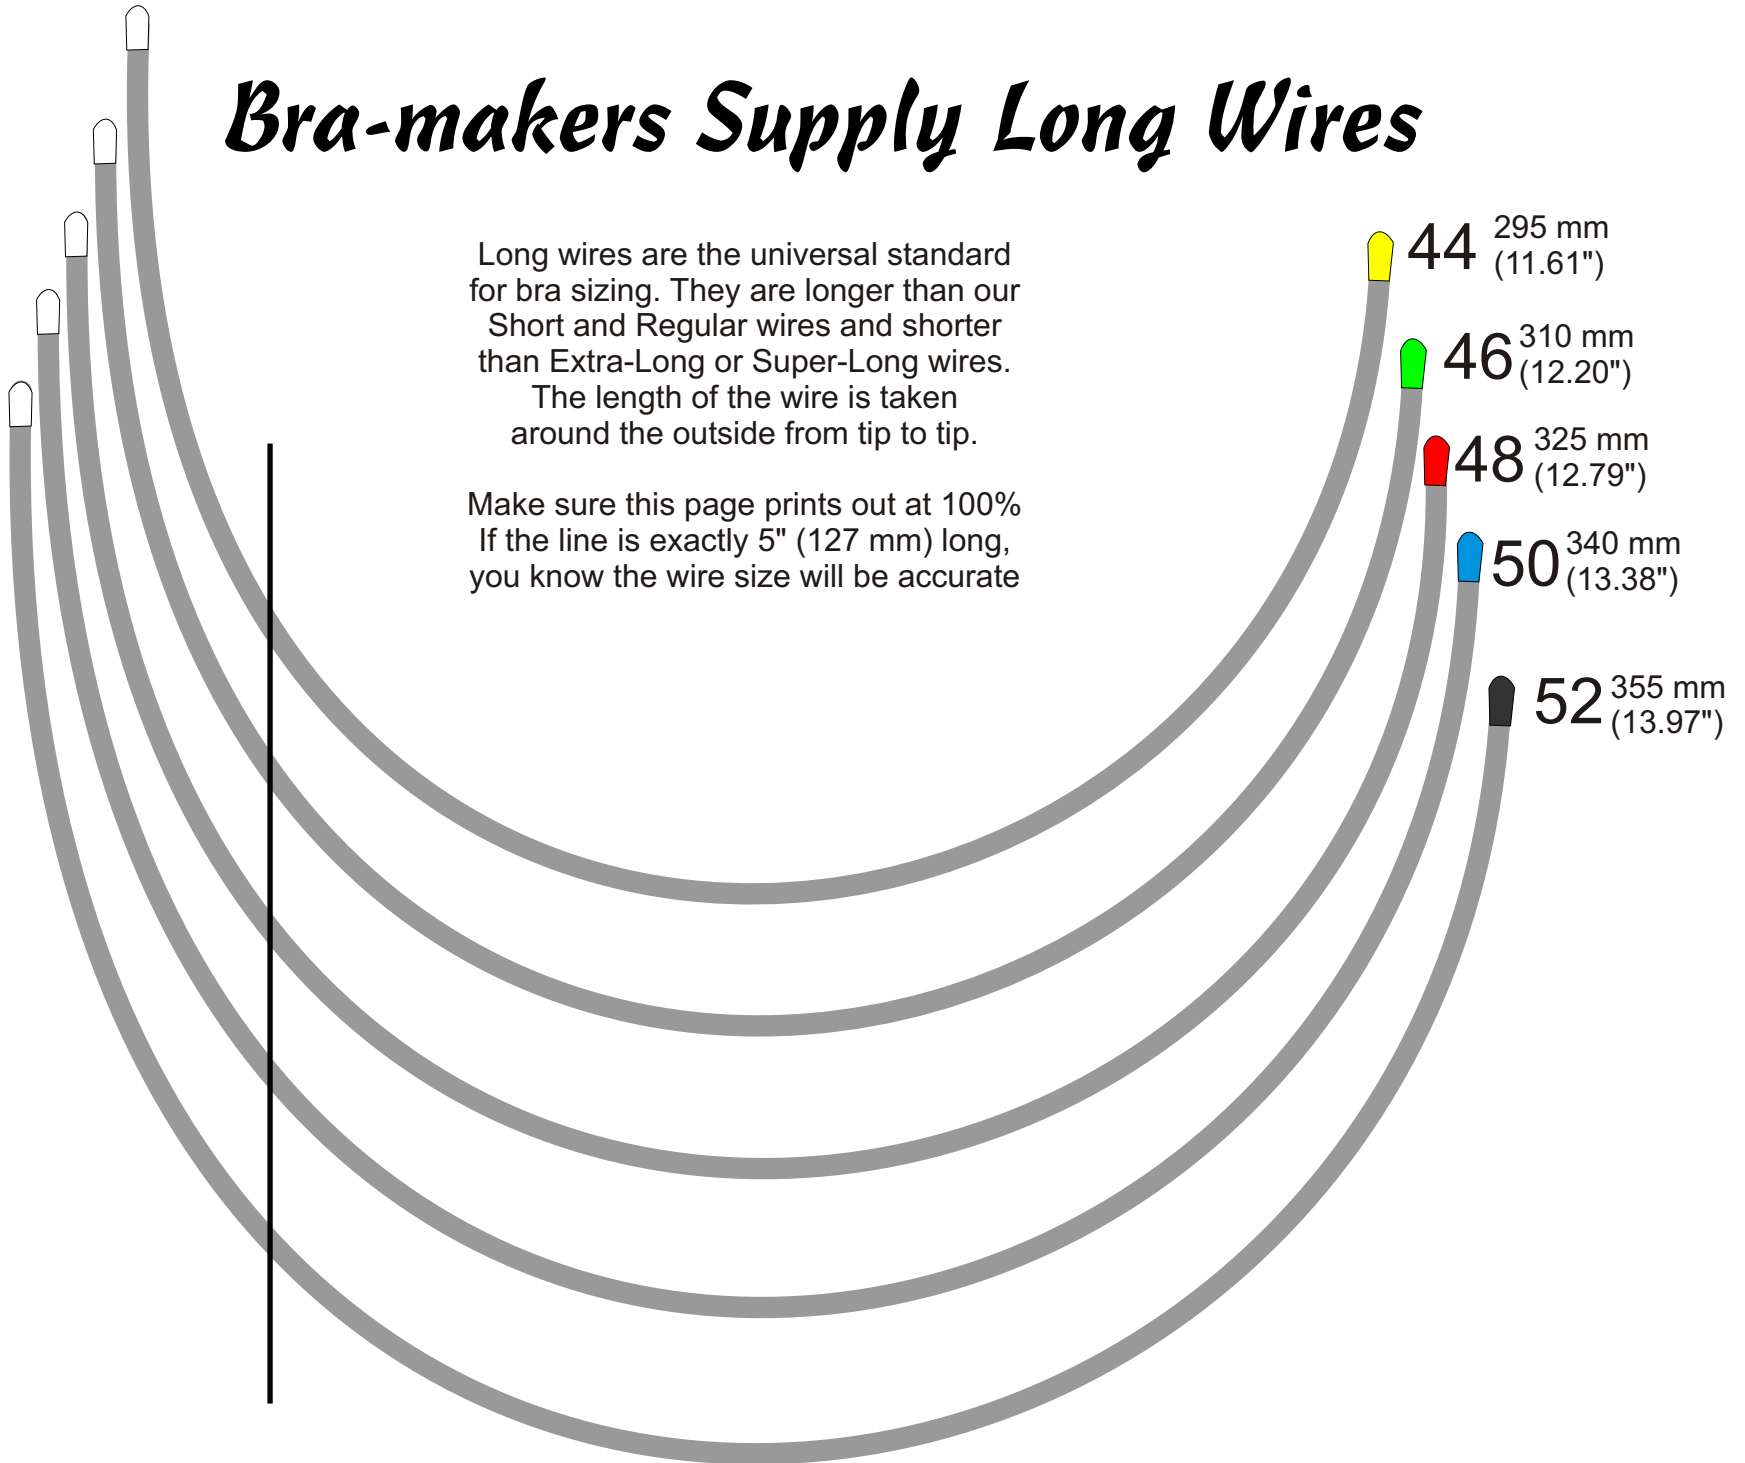

Make sure the page prints out at 100%. If this line is exactly 5" (127 mm) long, you know the wire size is accurate

Bra-makers Supply Long Wires

Long wires are the universal standard for bra sizing. They are longer than our Short and Regular wires and shorter than Extra-Long or Super-Long wires. The length of the wire is taken around the outside from tip to tip.

Make sure this page prints out at 100%
If the line is exactly 5" (127 mm) long,
you know the wire size will be accurate

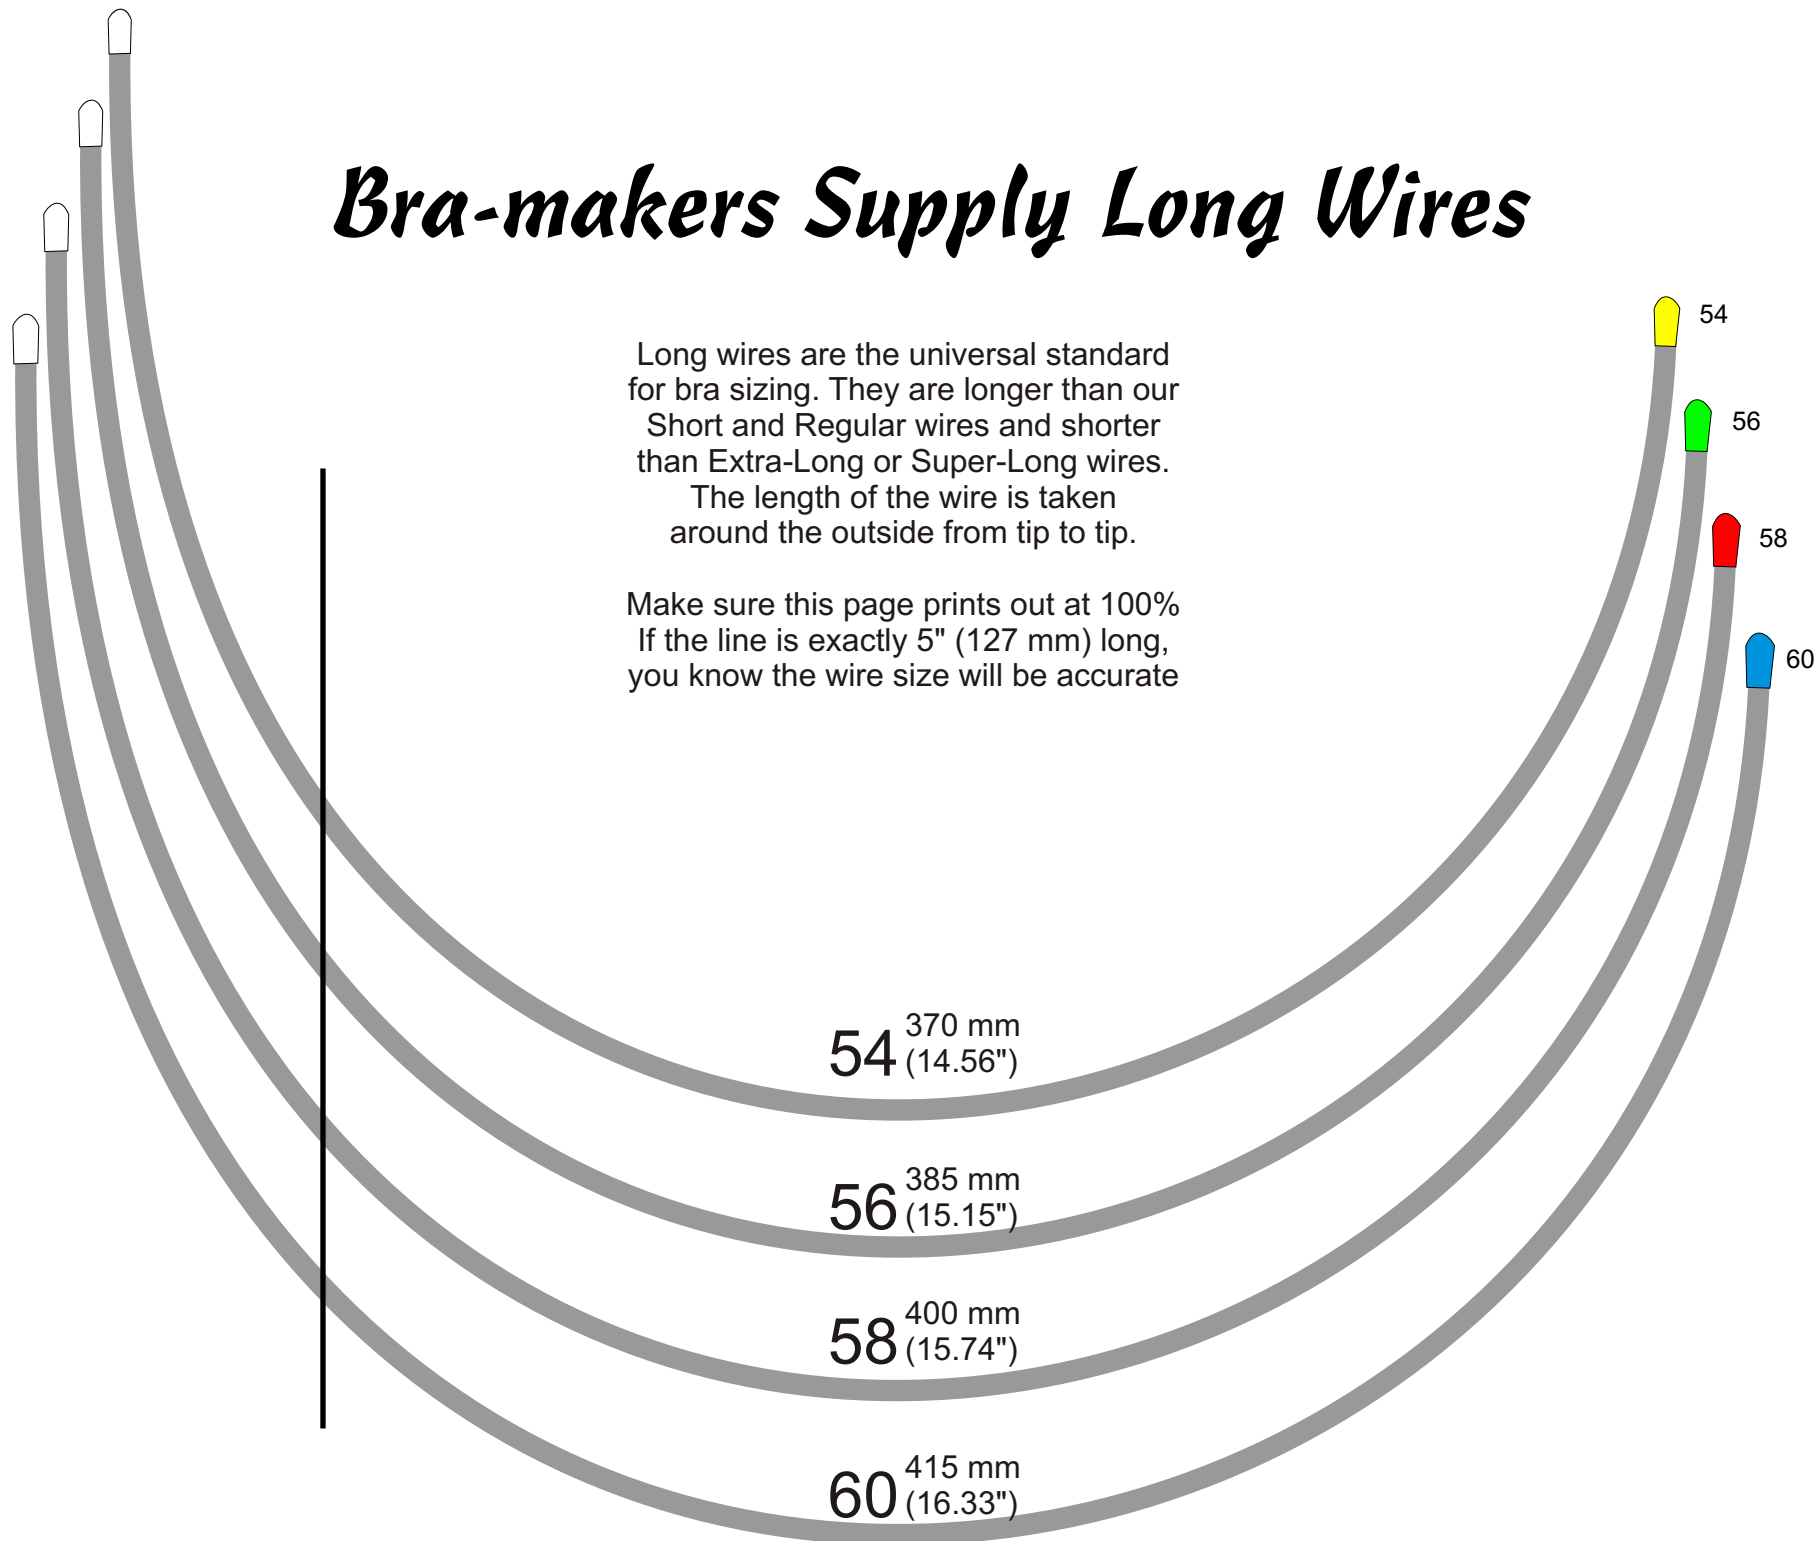

Bra-makers Supply Long Wires

Long wires are the universal standard for bra sizing. They are longer than our Short and Regular wires and shorter than Extra-Long or Super-Long wires.

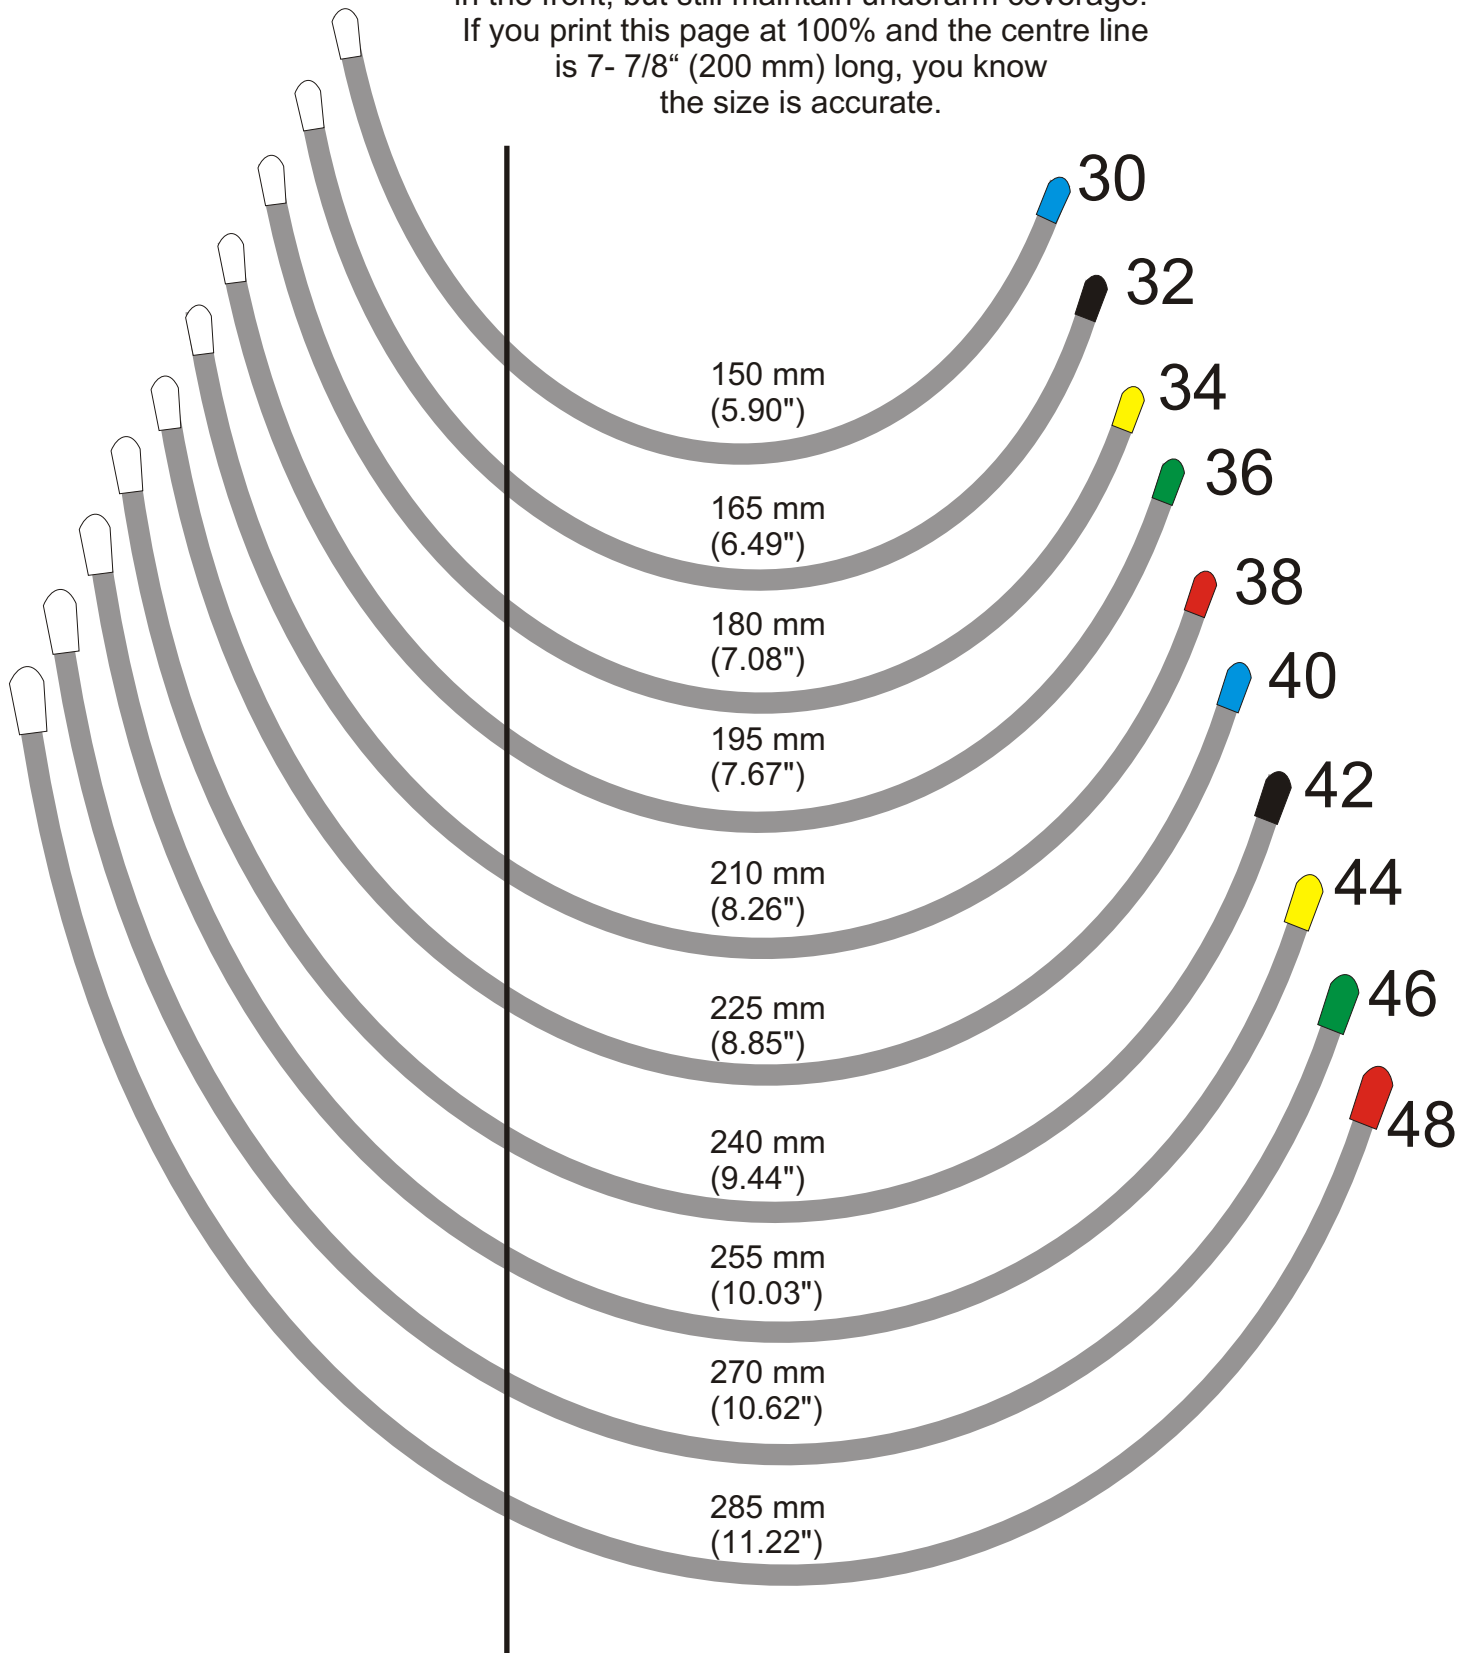

The length of the wire is taken around the outside from tip to tip.

Make sure this page prints out at 100%
If the line is exactly 5" (127 mm) long,
you know the wire size will be accurate

Bra-makers Supply Short Wires

Short wires are intended for bras that are cut lower in the front, but still maintain underarm coverage. If you print this page at 100% and the centre line is 7- 7/8" (200 mm) long, you know the size is accurate.

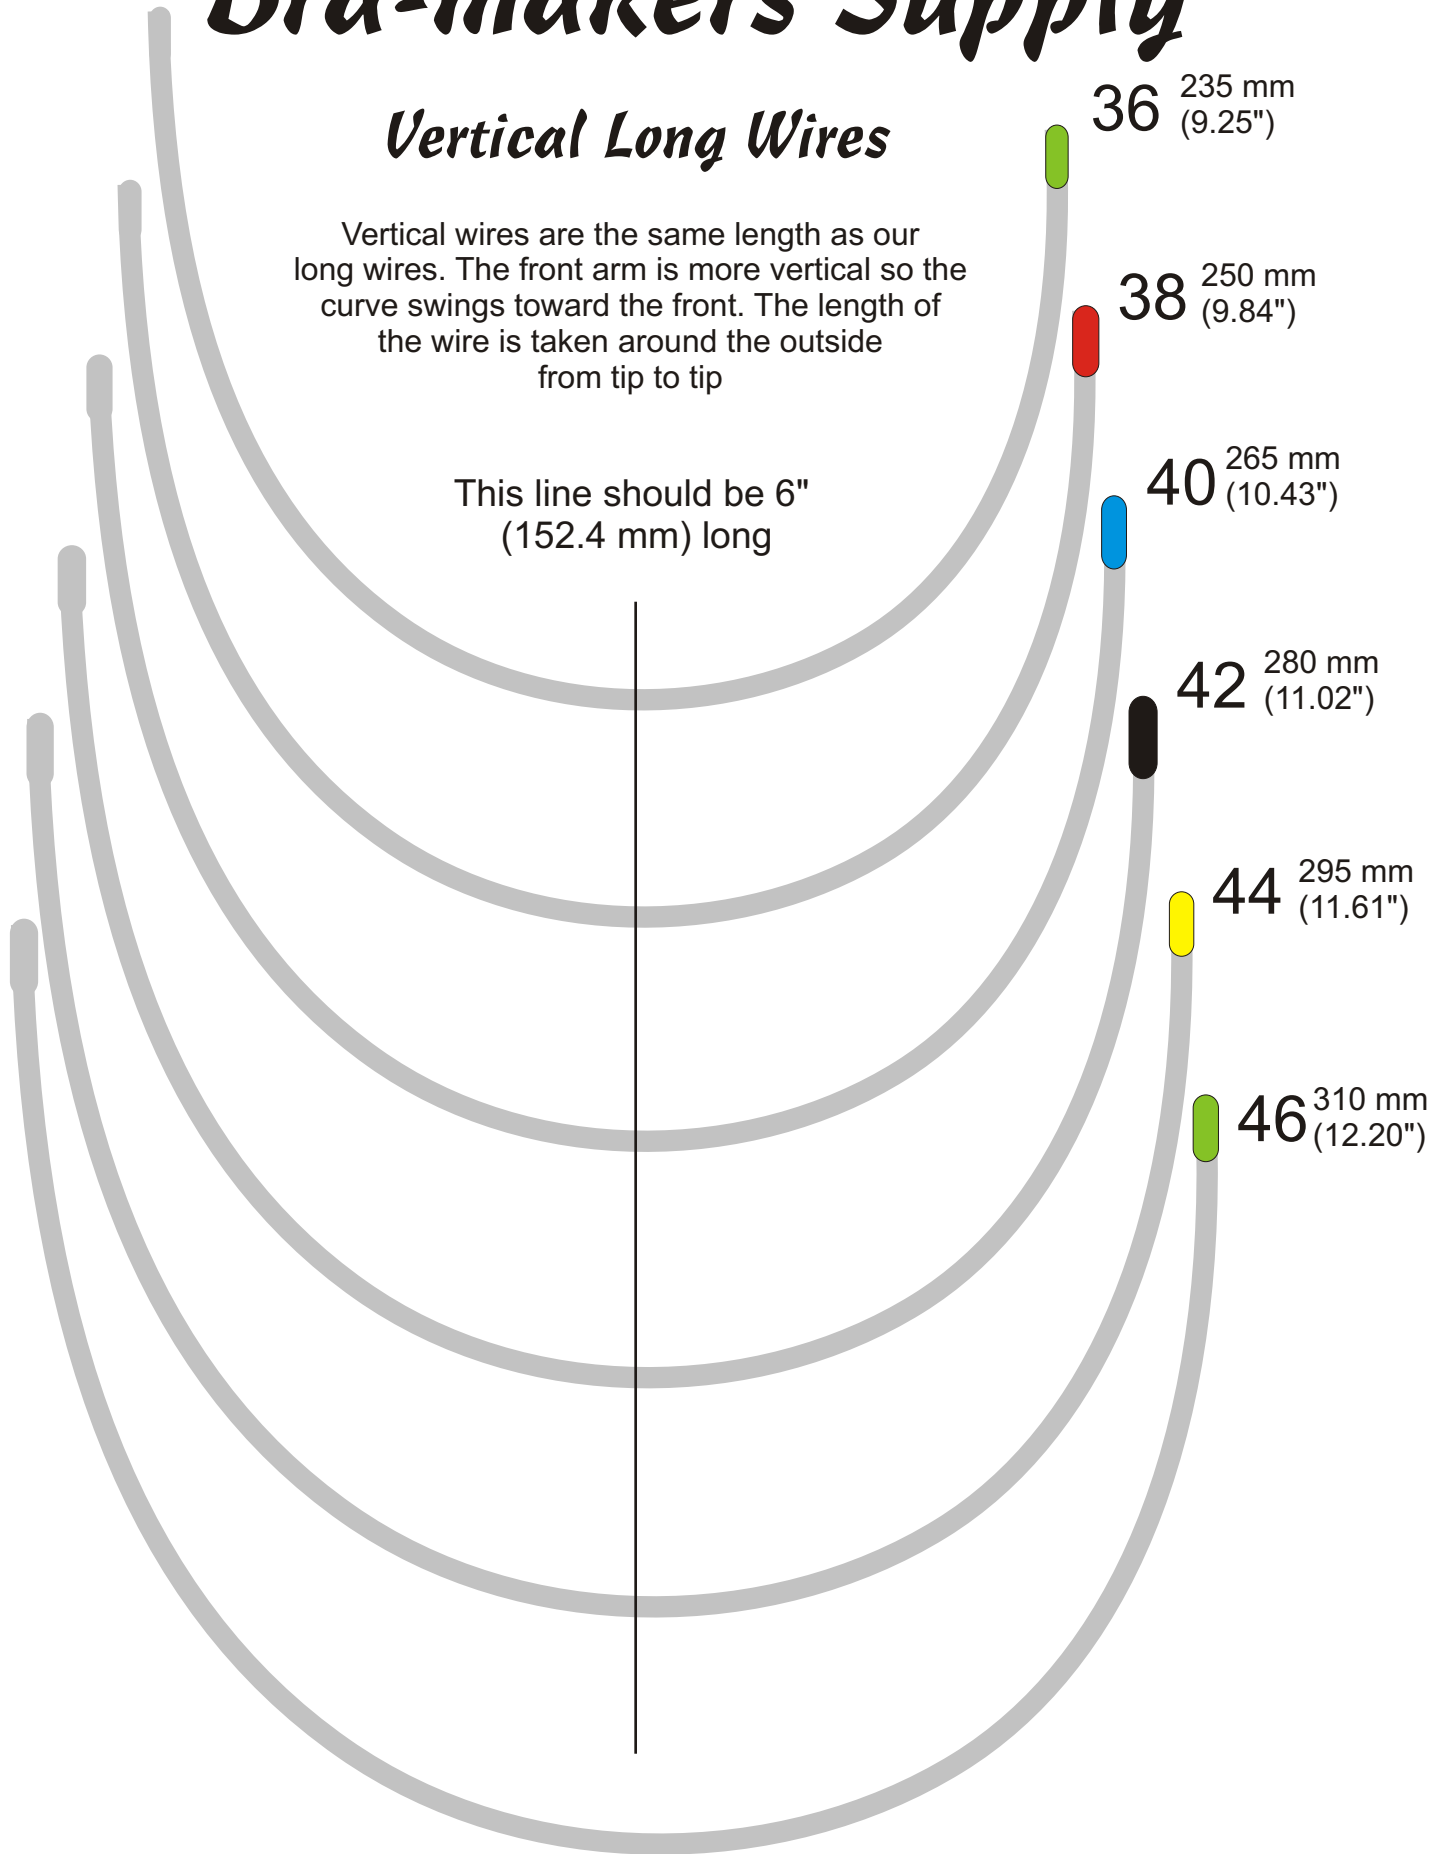

Bra-makers Supply

Vertical Long Wires

Vertical wires are the same length as our long wires. The front arm is more vertical so the curve swings toward the front. The length of the wire is taken around the outside from tip to tip

This line should be 6"
(152.4 mm) long

Bra-makers Supply

Vertical Long Wires

Vertical wires are the same length as our long wires. The front arm is more vertical so the curve swings toward the front. The length of the wire is taken around the outside from tip to tip

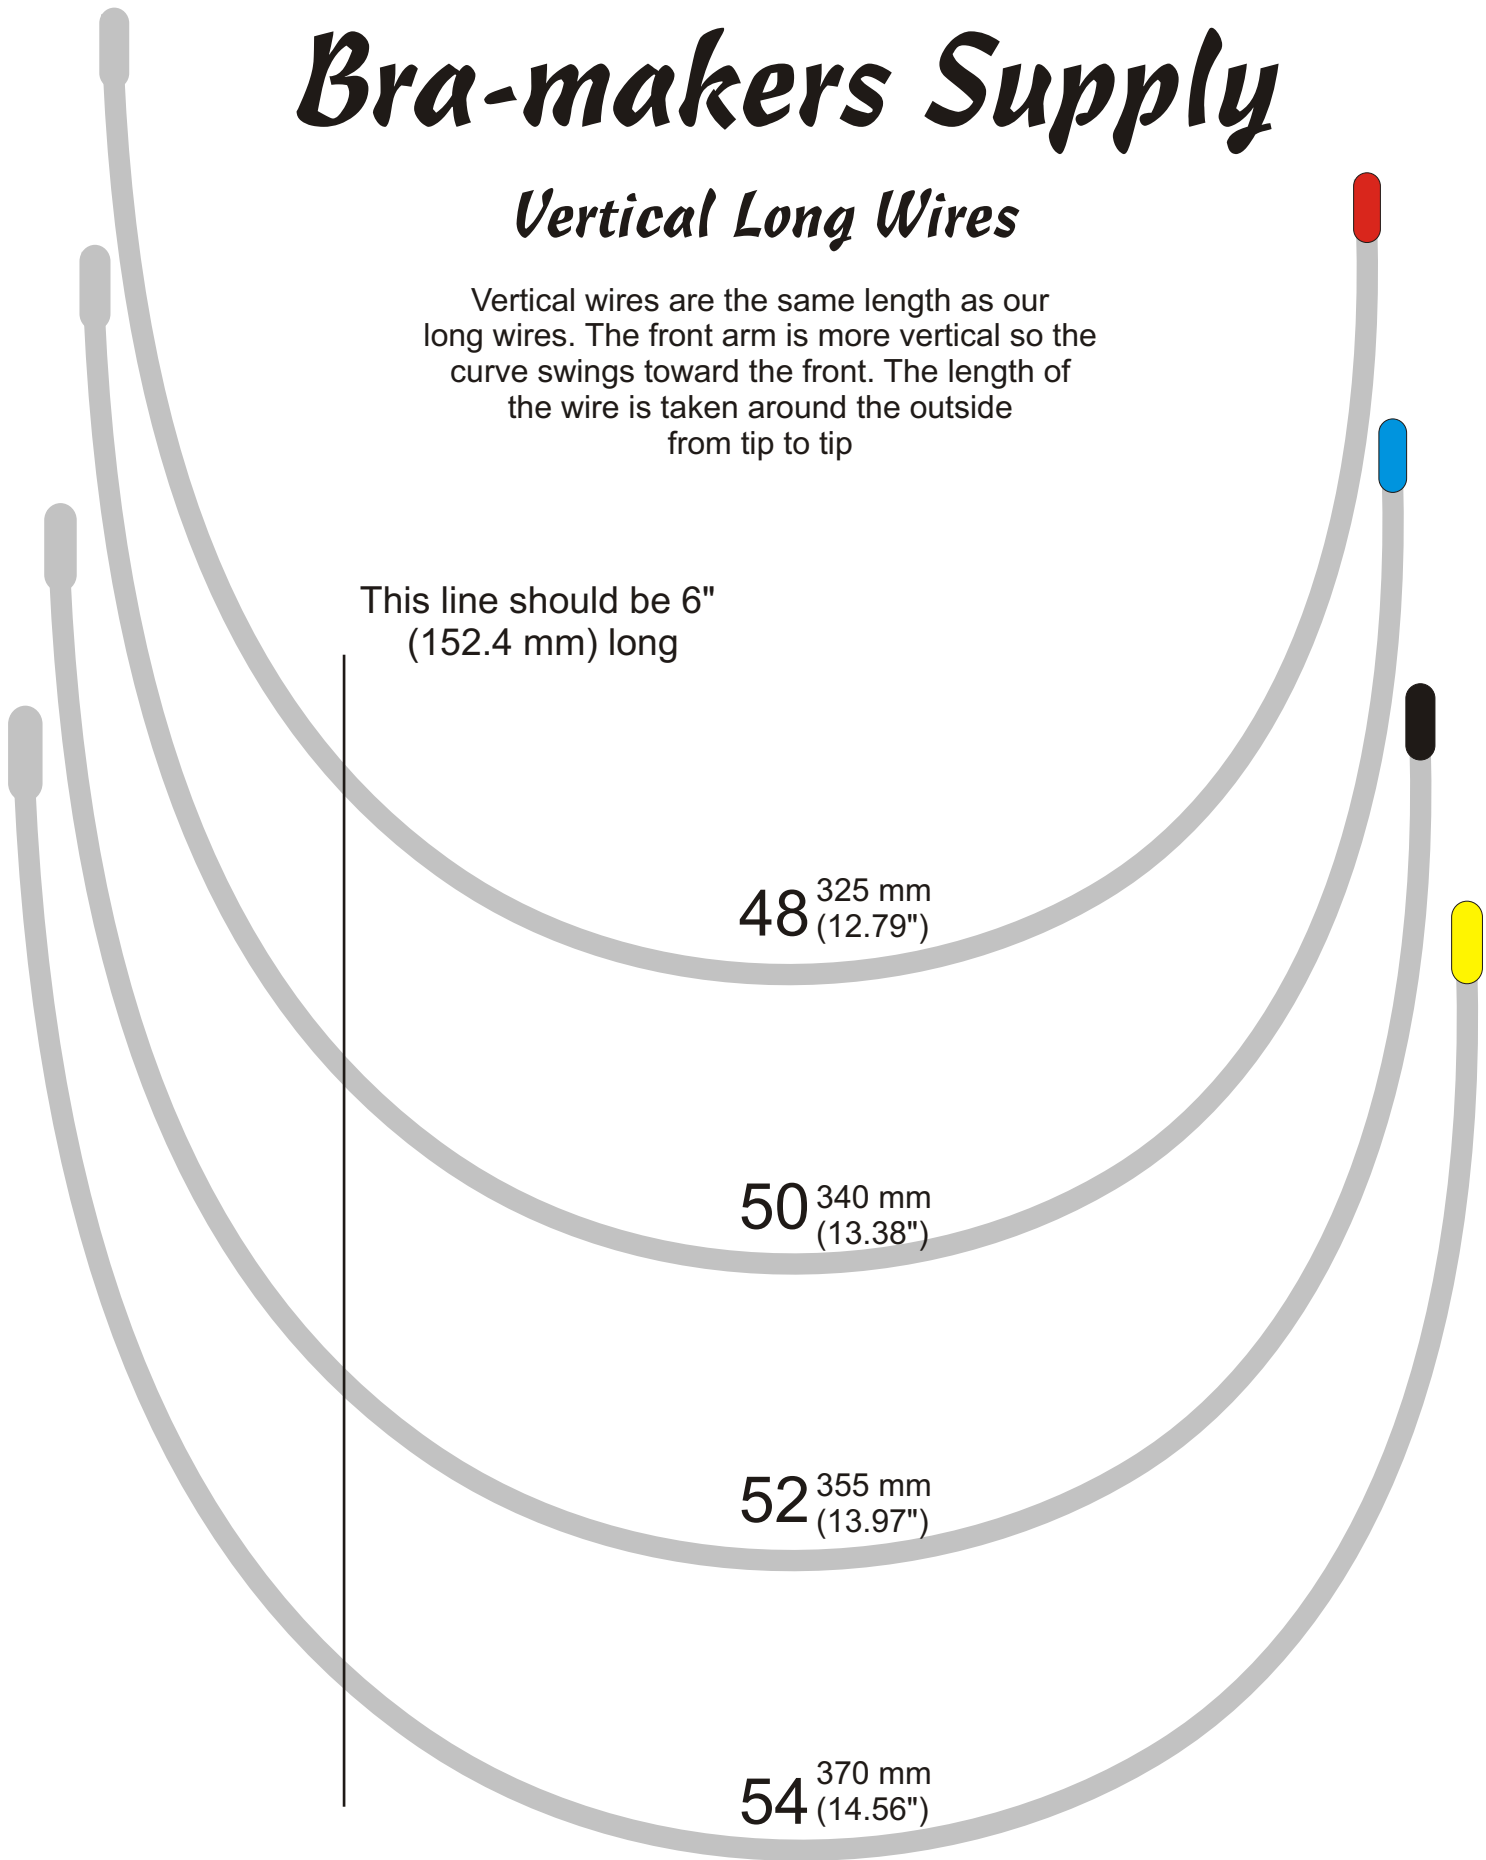

This line should be 6"
(152.4 mm) long

48 ^{325 mm}
(12.79")

50 ^{340 mm}
(13.38")

52 ^{355 mm}
(13.97")

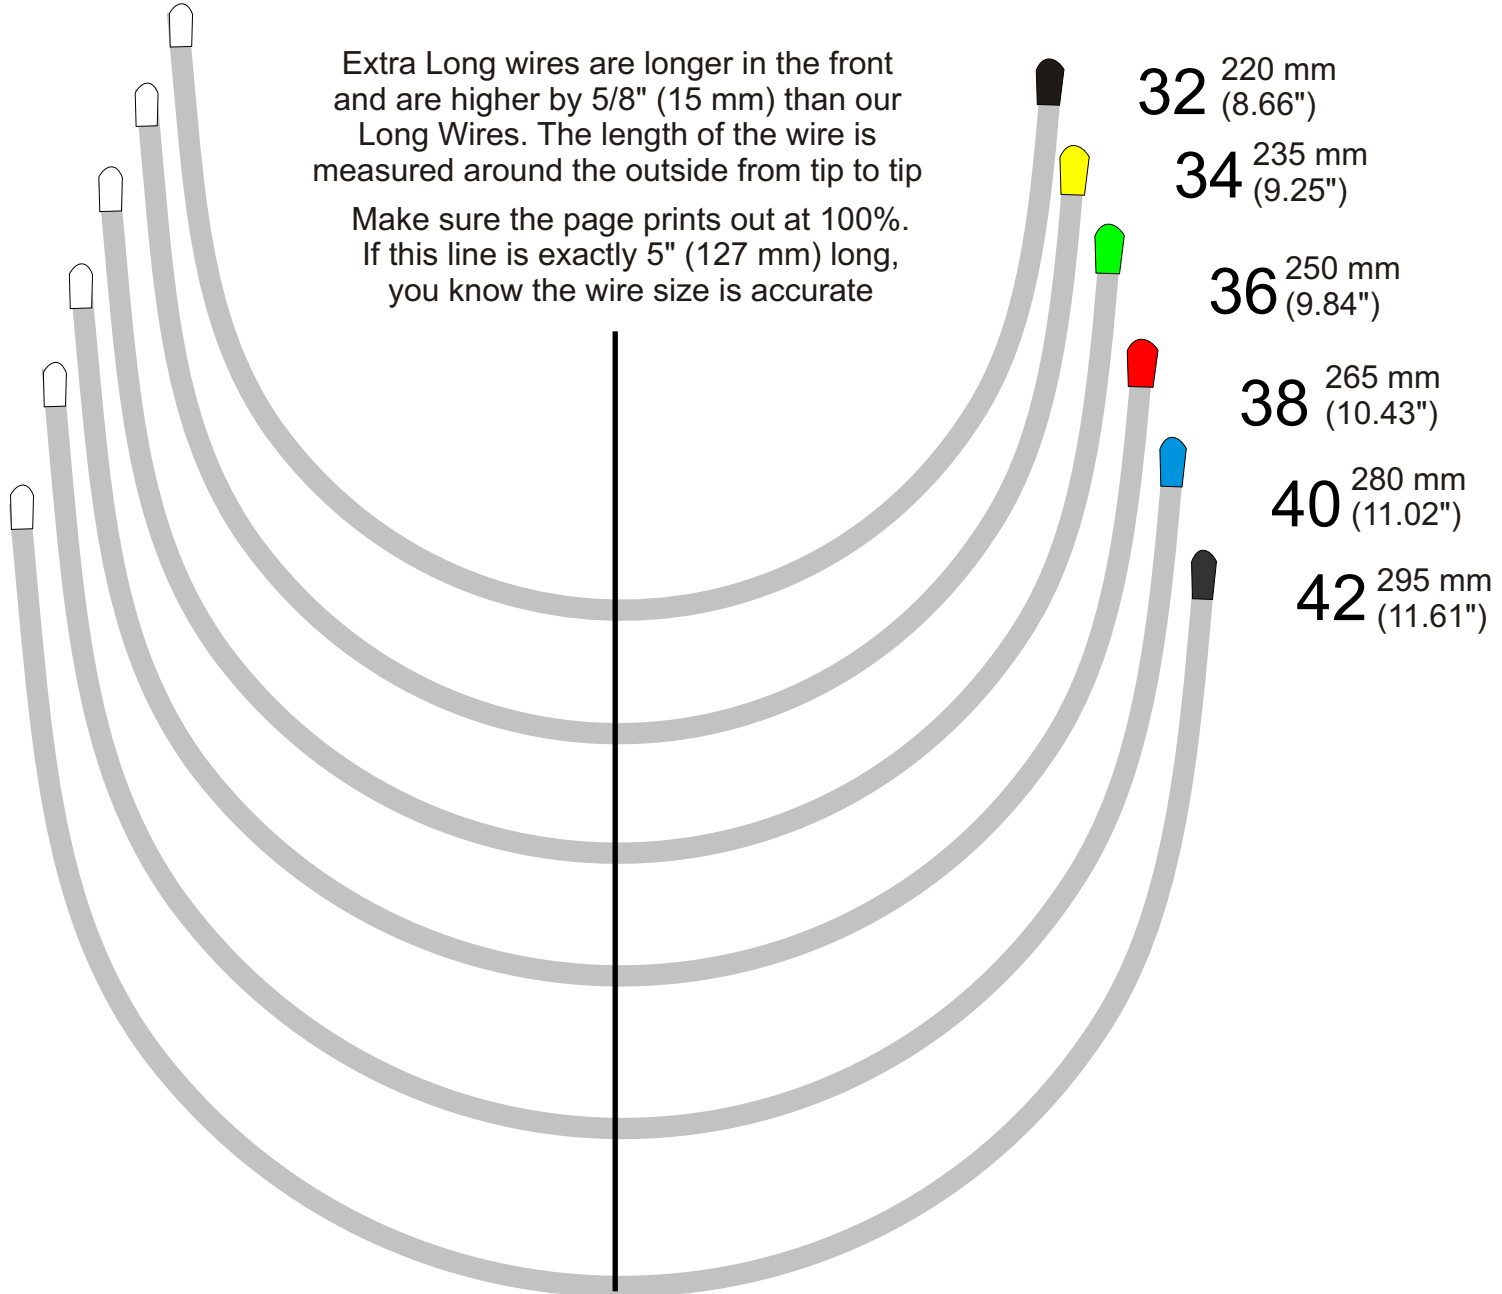

54 ^{370 mm}
(14.56")

Bra-makers Supply Extra Long Wires

Extra Long wires are longer in the front and are higher by 5/8" (15 mm) than our Long Wires. The length of the wire is measured around the outside from tip to tip

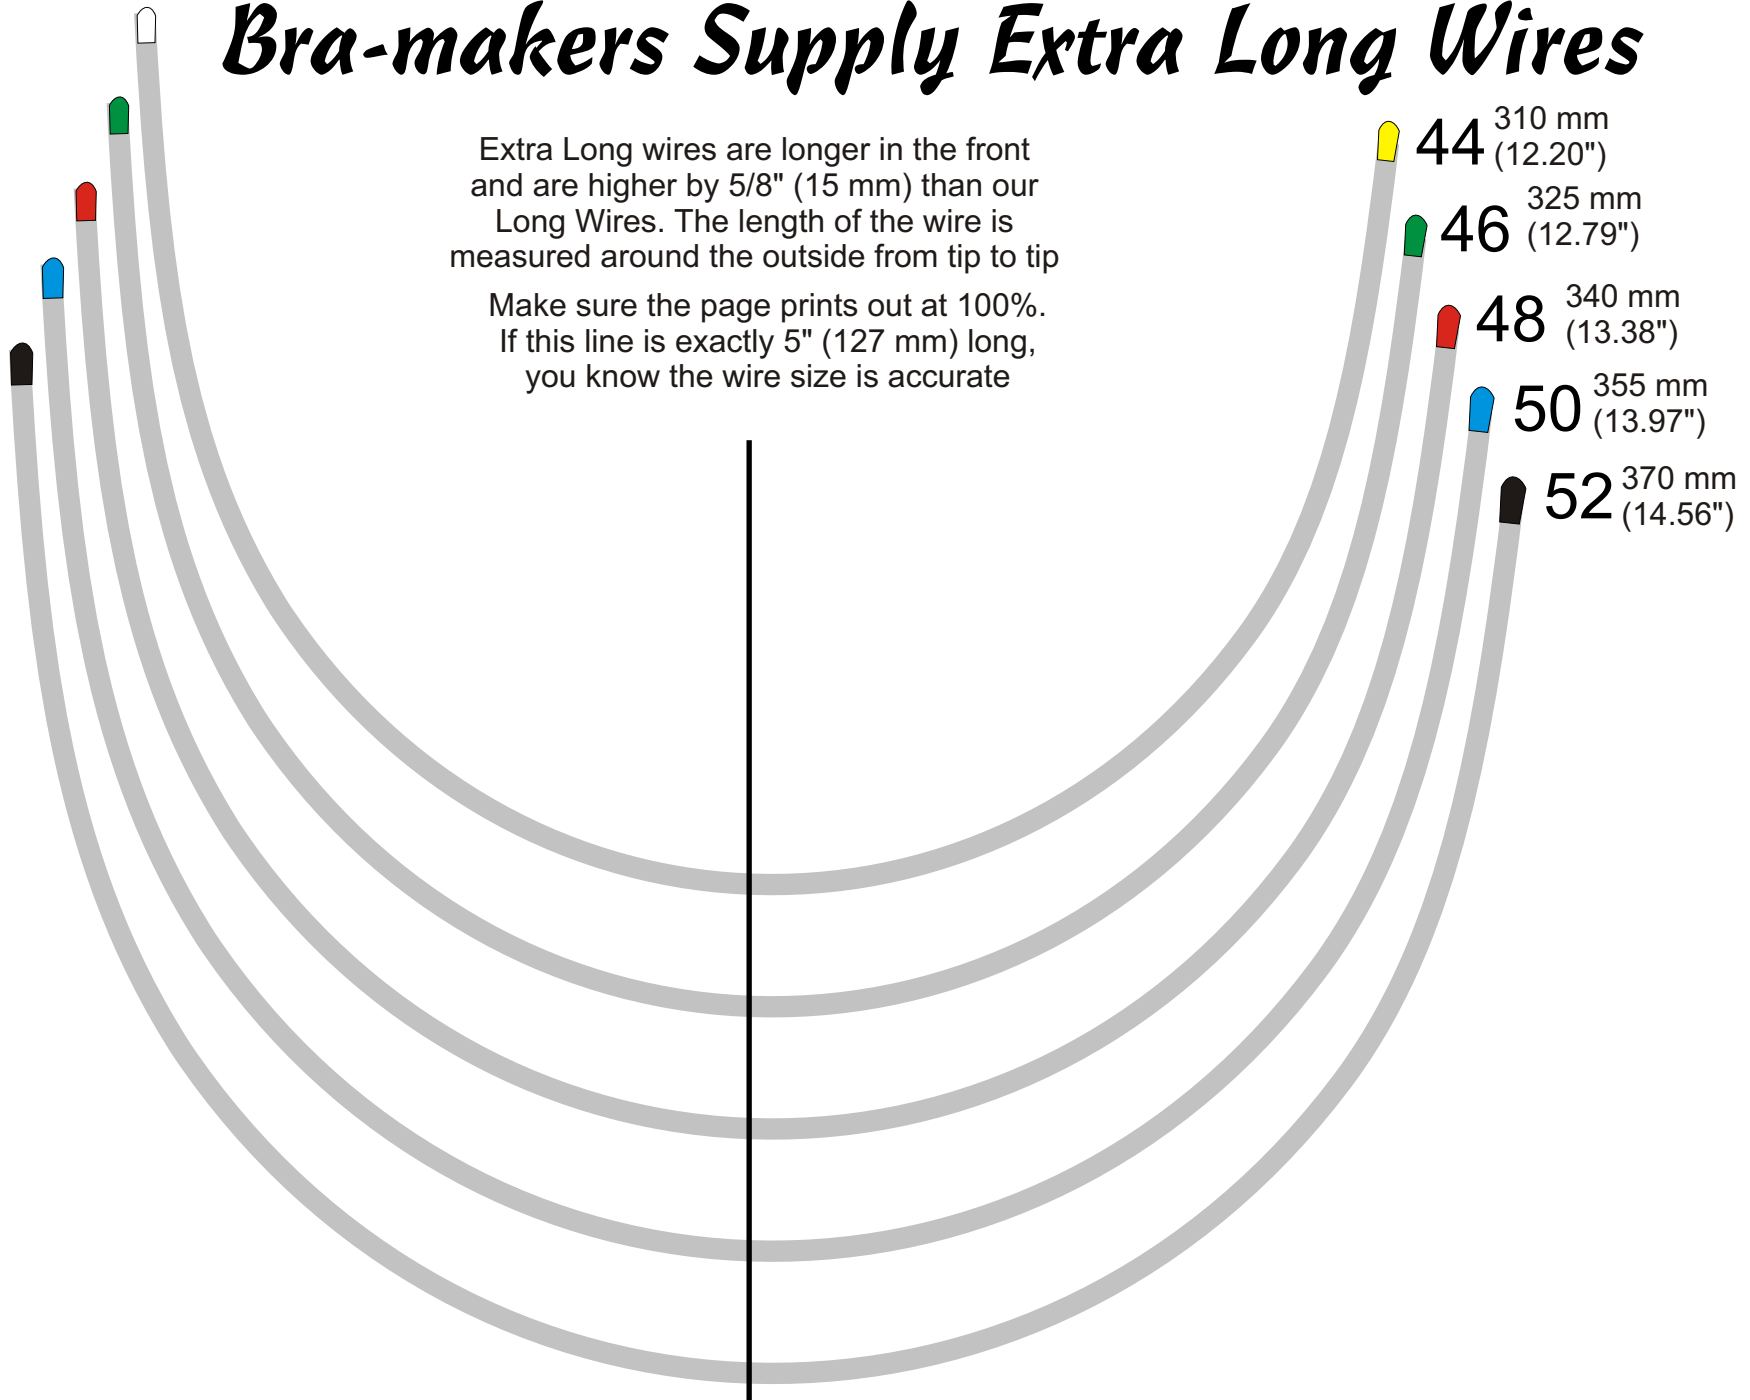

Make sure the page prints out at 100%.
If this line is exactly 5" (127 mm) long,
you know the wire size is accurate

Bra-makers Supply Extra Long Wires

Extra Long wires are longer in the front and are higher by 5/8" (15 mm) than our Long Wires. The length of the wire is measured around the outside from tip to tip

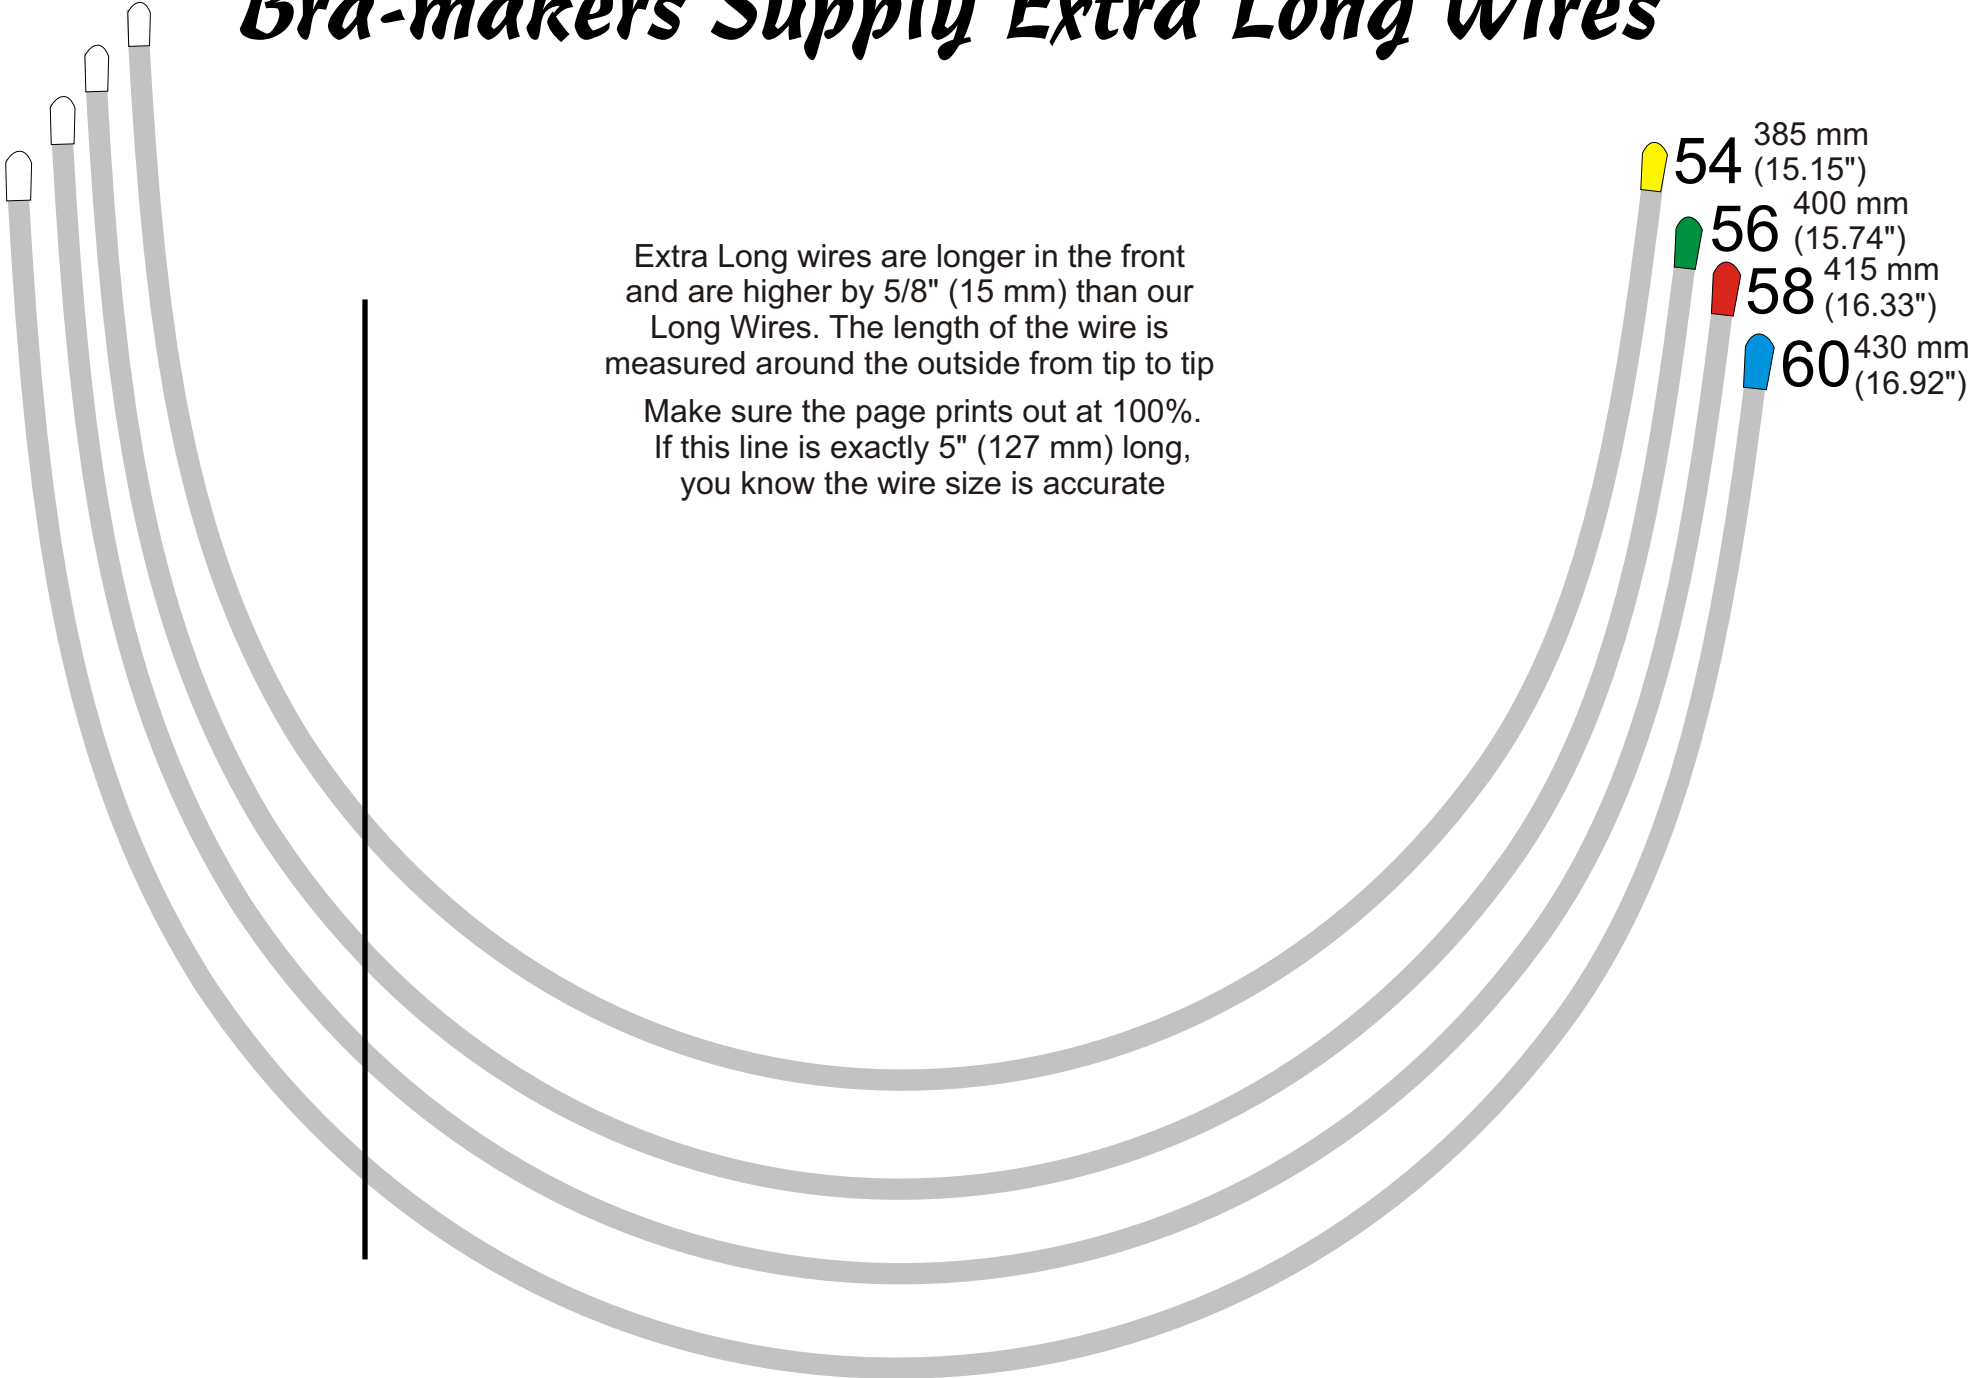

Make sure the page prints out at 100%.
If this line is exactly 5" (127 mm) long,
you know the wire size is accurate

Bra-makers Supply Extra Long Wires

Extra Long wires are longer in the front and are higher by 5/8" (15 mm) than our Long Wires. The length of the wire is measured around the outside from tip to tip

Make sure the page prints out at 100%.
If this line is exactly 5" (127 mm) long,
you know the wire size is accurate

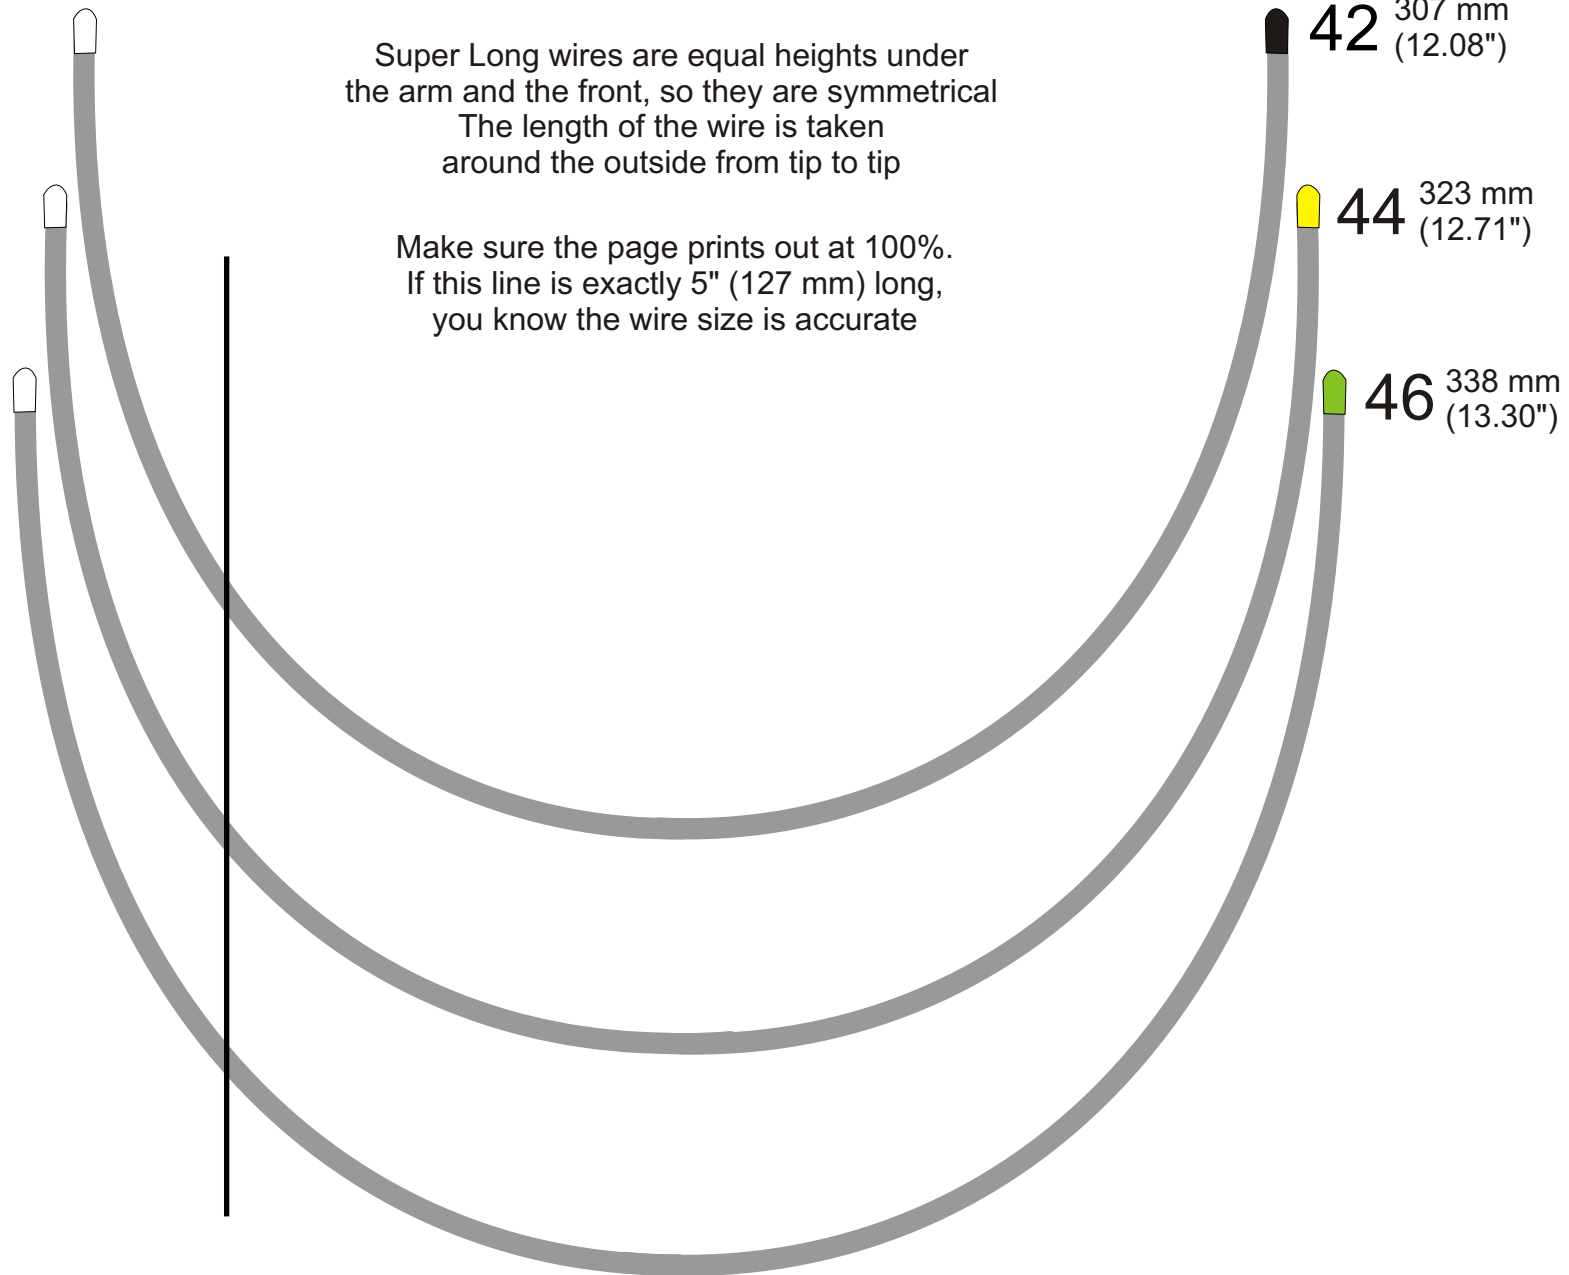

The diagram shows several grey bra wires of different lengths curving upwards. A vertical black line is drawn to the left of the text, serving as a 5-inch reference. On the right, four wires are color-coded and labeled with their sizes and measurements:

54	385 mm (15.15")
56	400 mm (15.74")
58	415 mm (16.33")
60	430 mm (16.92")

Bra-makers Supply Super Long Wires

Super Long wires are equal heights under the arm and the front, so they are symmetrical
The length of the wire is taken around the outside from tip to tip

Make sure the page prints out at 100%.
If this line is exactly 5" (127 mm) long,
you know the wire size is accurate

Bra-makers Supply Super Long Wires

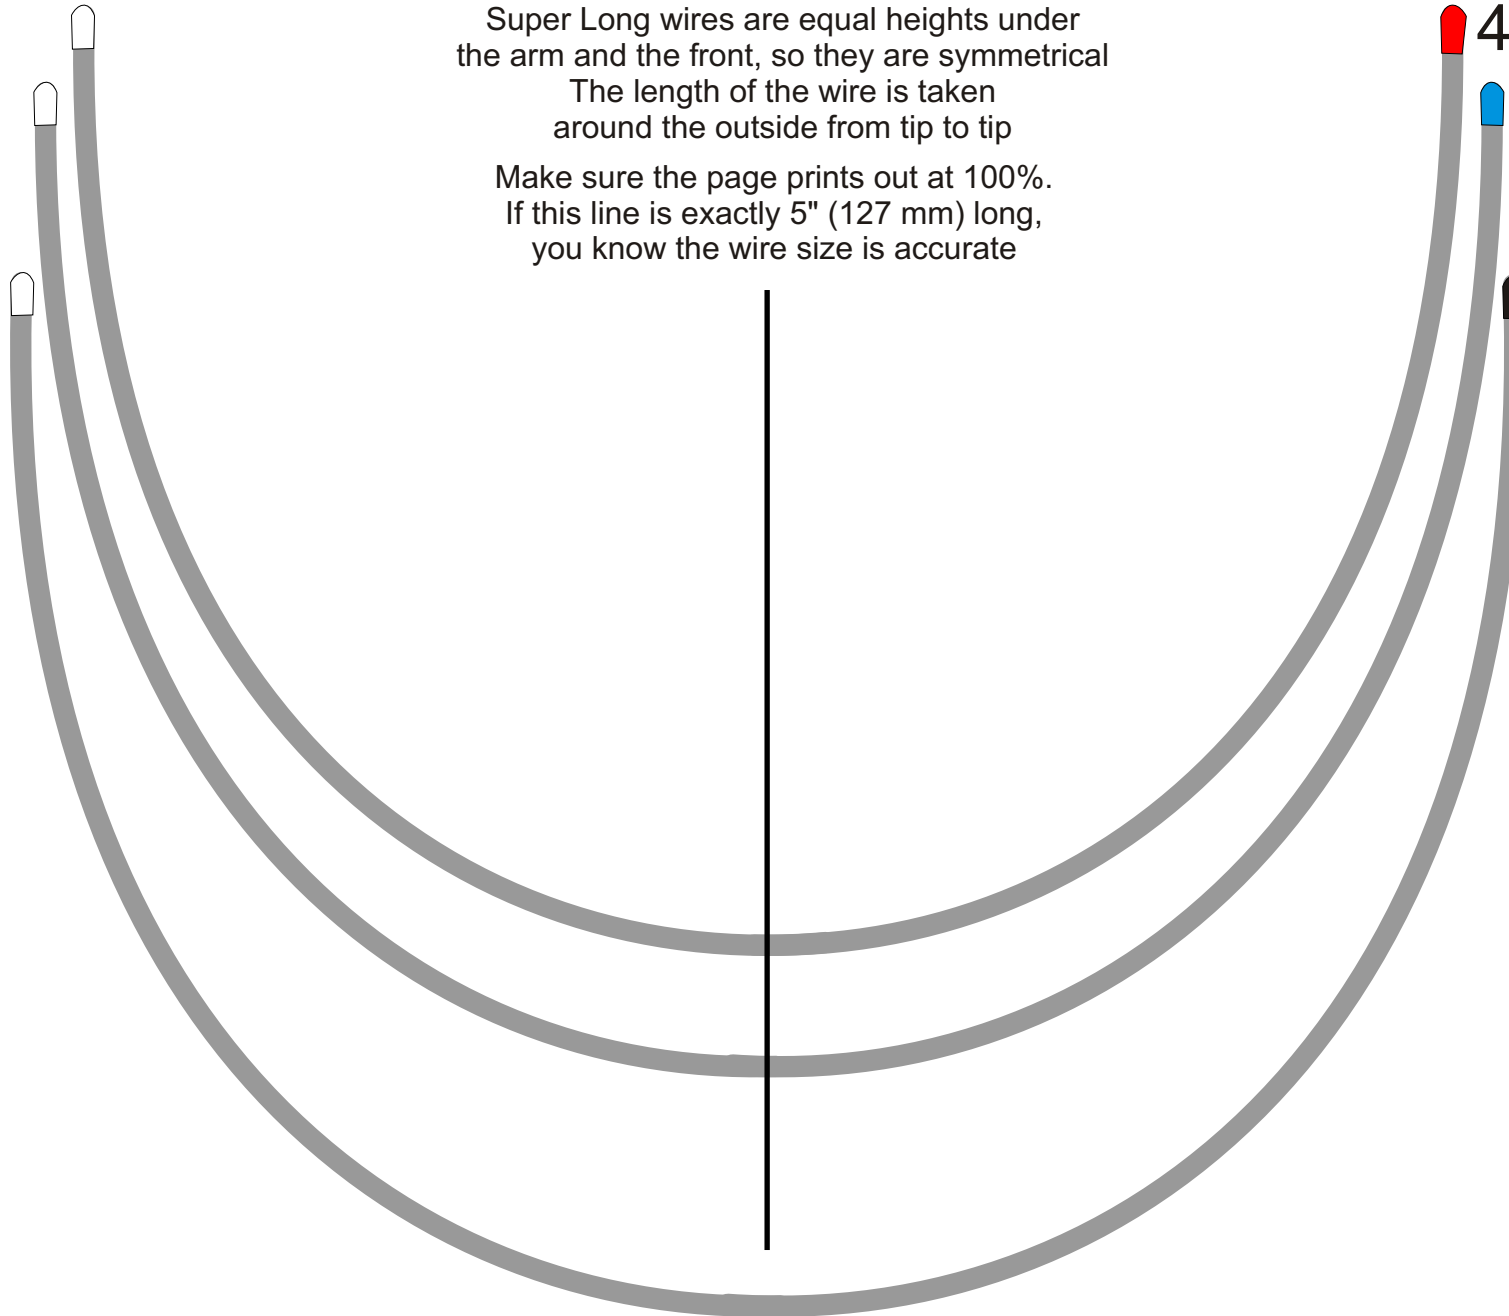

Super Long wires are equal heights under the arm and the front, so they are symmetrical
The length of the wire is taken around the outside from tip to tip

Make sure the page prints out at 100%.
If this line is exactly 5" (127 mm) long,
you know the wire size is accurate

48 353 mm
(13.89")

50 368 mm
(14.48")

52 383 mm
(15.07")

Bra-makers Supply Super Long Wires

Super Long wires are equal heights under the arm and the front, so they are symmetrical
The length of the wire is taken around the outside from tip to tip

Make sure the page prints out at 100%.
If this line is exactly 5" (127 mm) long, you know the wire size is accurate
